Career Objective

Enthusiastic, detail-oriented Computer Science and Engineering graduate seeking an **entry-level Software Engineer role**. Strong foundation in **programming, data structures, algorithms, database management, and software development**. Passionate about building scalable applications, solving real-world problems, and continuously learning new technologies.

Education

B.Tech in Computer Science and Engineering, *Techno India University* 2022 – 2026

Core Technical Skills

Languages
Python, Java, JavaScript, C, C++

Database
MySQL, JDBC, SQL Queries

Developer Tools
Git, GitHub, VS Code

DSA in Java
Arrays, Trees, Dynamic Programming

Projects

Text Detection Using Machine Learning and Deep Learning, 11/2025 – 06/2026
4th Year Capstone Project | Team of 5 | Supervised by Dr. Kalpita Dutta

- Engineered a text detection system comparing traditional and advanced approaches.
- Implemented U-Net (97.03% IoU, 98.78% accuracy), outperforming PSPNet and Vision Transformer.
- Developed ensemble learning with multi-head attention (94.49% IoU, 98.56% precision, 98.49% F-Score).
- Applied image preprocessing, optimization, model evaluation, system design and team collaboration.

Student Result Management System, *Java, MySQL, OOP, JDBC* 04/2026 – 05/2026

- Built a Java application managing 500+ student records with CRUD, search/sort, automated grading, JDBC and MySQL.
- Applied strong problem-solving skills in data management and system architecture

TECHNICAL COMPETENCIES

Technical Communication
Explaining programming concepts, presenting technical topics, and preparing learning materials.

Computer Science Fundamentals
Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Network

Web Technologies
HTML, CSS, JavaScript, DOM Manipulation

Languages

English
